

Demonstration of Proposed Features

Date	04 July 2026
Team ID	XXXXXXX
Project Name	Smart-Lender-Loan-Eligibility-Prediction
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrate d (Yes / No)	Remarks
1	Loan Eligibility Prediction	Predicts whether a loan application is Approved or Rejected using a trained Machine Learning model.	Implemented	Yes	Working successfully
2	Applicant Information Form	Collects applicant details such as income, education, loan amount, credit history, etc.	Implemented	Yes	User-friendly interface
3	Machine Learning Model Integration	Integrates the trained model.pkl and scaler.pkl with the Flask application for real-time prediction.	Implemented	Yes	Prediction generated successfully
4	Responsive Web Interface	Provides a clean and responsive interface using HTML, CSS, and JavaScript.	Implemented	Yes	Supports desktop browsers
5	Result Display	Displays the prediction result (Approved/Rejected) based on the submitted applicant information.	Implemented	Yes	Results displayed correctly
6	Project Documentation & GitHub Repository	Maintains project documentation and source code in a GitHub repository.	Implemented	Yes	Repository submitted successfully

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
