

Project Demo Planning

Date	04 July 2026
Team ID	XXXXXXX
Project Name	Smart-Lender-Loan-Eligibility-Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the Smart Lender project, objectives, and problem statement.	2	Self
2	Solution Overview	Explain the system architecture, workflow, dataset, and machine learning model used.	3	Self
3	Application Demonstration	Demonstrate the web application, enter applicant details, and generate loan predictions.	5	Self
4	Feature Explanation	Explain the implemented features such as prediction model, responsive UI, Flask integration, and result display.	3	Self
5	GitHub Repository & Documentation	Show the GitHub repository structure, project files, and documentation.	2	Self
6	Conclusion & Future Enhancements	Summarize the project and discuss possible future improvements.	2	Self

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for automating loan eligibility prediction and the project objectives.
2	Solution Overview	Present the system architecture, project workflow, technologies used, and machine learning approach.
3	Live Feature Demonstration	Launch the Flask application, enter sample applicant details, and demonstrate both Approved and Rejected prediction results.

4	Q&A Session	Answer questions related to the dataset, machine learning model, Flask integration, accuracy, limitations, and future enhancements.
